

## Guarantee RAZOR reagents arrive with maximum shelf-life

1. Specify the reagent kits along with the quantity to be purchased.
2. Shipping intervals will be every 6 months in the months of June and December.
3. Pay for the kits along with applicable shipping and administrative charges.
4. Idaho Technology delivers your reagents in the designated months.
5. The program is flexible, you can pull from your depot if you run short on reagents or re-apply the money towards other purchases.

RAZOR Reagent Pouches can be used either on the RAZOR EX instrument or on the RAZOR instrument.

### Benefits of a Depot Program

- Idaho Technology Inc. manages your reagent inventory by shipping fresh reagents before older reagents expire.
- Reagents guaranteed to arrive with at least 6 months of shelf-life.
- Guaranteed delivery dates.
- Sustain instrument capability
- Use grant money to purchase reagents beyond the first year.
- Customizable and flexible program to fit your supply requirements. Available for all RAZOR reagents.
- Only one export license required for international customers which reduces fees and guarantees reliable ship dates.
